Why do people use these networking sites?

- To connect with friends and family
- To play games
- To stay up to date with news
- To organise social events
- To meet new people
- To share images and videos
- To share life events

Using Social Networking

Generally, people make good choices and use these sites for entertainment and communication. However, unfortunately, there are some people who make bad choices when using social media. They use information to upset and hurt people.

REMEMBER – The information we put online can always be traced.

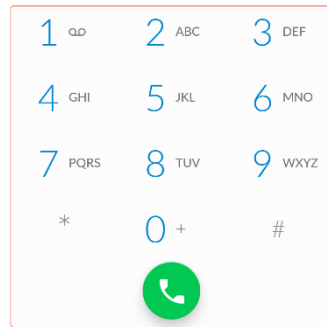

Hackers can access sensitive information and use it with bad consequences.

Task

Now in your table groups, discuss what the information we should avoid placing online and create a poster:

Examples:

Phone Number

Picture of you outside your home, school or work

Address

Passwords

Where you work or go to school

Current Location - i.e. when you're on holiday
